EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

a) Cancel non-elected claims 8-19.

The following is an examiner's statement of reasons for allowance: The Jaicks patent is concerned with collection of cells and mucus from the cervics in order to detect the presence of cancerous cells. The patent discloses a disposable curette **scraper** equipped with serrations (36) capable of removing cells from the cervix wall. The instrument disclosed in the McDonald patent is disclosed as being used for the collection of **secretions** from the cervical canal. There is no teaching or suggestion that the McDonald instrument is capable of **scraping** cells from the cervix. Accordingly, one skilled in the art would not be motivated to add an end of the McDonald instrument to the handle end of the Jaicks scraper since the McDonalds device is not designed for scraping cells.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
